SATURDAY, NOVEMBER 24. 1739.

91° 1380.

Yesterday arriv'd a Mail from Holland.

Petersburg, Nov. 11. N. S.

  
INCE the Conclusion of the Peace with the Porte, the Ministry is chiefly taken up about the Affairs of Sweden, and the Settlement of the Succession to the Crown. Part of Velt-Marshal Laffey's Army is to winter in the Heart of Russia, that the Troops may be ready to advance in Case of Need towards Livonia, and the other conquer'd Provinces.

An Extract from Count Munich's Army has also brought Letters from M. Cagnoni, who assisted on the Part of this Court at the Conclusion of the Treaty of Segre. This Minister, who dates his Letters from Niissi, says, that the Grand Vizier contrary to all Expectation would have altered what was stipulated in the Treaty for the Re-establishment of the ancient Limits, on pretence that the Tatars would not have otherwise Pature-ground enough for their Flocks; but M. Cagnoni says, that the Grand Vizier thought fit to give up his Pretension upon his declaring to him, that if the Porte refus'd to perform what had been specify'd on that Head in the Treaty, the same would be null and void, and the War would be immediately renew'd. The Caressa has resolv'd to settle a Pension of 100:00 Rubles on Princess Anne and the Prince of Brunswick, for the Maintenance of their Court.

Sokholm, Nov. 18. N. S. The Court is taking the necessary Measures to have as many Troops as possible in Finland; besides those already sent thither by Sea, 2000 Men are marching thither by Land, and several thousand more are order'd to be ready by April next, to be sent likewise to Finland, where will then be near 4000 Men.

Venice, Nov. 18. N. S. The Great Duke has received Letters from Florence with Advice, That the Number of the Spanish Forces is very much increased within these two Months past in the State del Preddi, and that the Troops of the King of the Siciles are also making several Movements along the Coasts towards Naples. The Duke is at present oblig'd by a Cold to keep his Chamber. 'Tis now determin'd that the Velt-Marshal Dau shall be President of the Commission for the Affairs of the Gentili Walli and Neuperg. 'Tis said, that the Banate of Temeswær is to be incorporated with Hungary, and that the Royal Seat is to be remov'd from Birsburg to Buda. There is also a Plan formed to draw a Line from Stiria to Edenbourg, Presbourg, and four Miles farther, so that all the Tract of Country on this Side of it will be deem'd a Part of Austria. By the incorporation of the Banate of Temeswær, Hungary will gain a Territory as large again as what it will lose on the Side of Stiria. There is no Foundation for the Report of a Dispute between the French Ambassador here and the Pope's Nuncio.

To fill affirm'd, that 20000 Men of new Levies will be rais'd in the Empire for the Service of the Imperator, and that next Spring a considerable Body of Troops will be sent towards Italy, and some Regiments towards the Austrian Netherlands. Yet they affirm, that there will be some Reduction in the Army, and that six Regiments will be broke, viz. two of Foot and four of Horse, to be sent to recruit the other Regiments that are in Hungary, from whence four Regiments of Horse and two of Foot are expected next Spring at Brussels.

We are assured, that a Proposal lately started in a Conference at Court for breaking some Regiments in Hungary to incorporate them with others, has been unanimously rejected. We hear, that the auxiliary Troops of Saxony are in full March to return to their own Country, and the Bavarians being recalled by the Court of Munich are likewise preparing for their Departure very soon, but 'tis said, that as to the latter, certain States of the Empire have remonstrated against their Return into Germany, because of the Danger of their bringing the Plague with them.

Florence, Nov. 12. N. S. 'Tis reported that the King of Spain will renounce all Rights and Pretensions to the Allodial Estates of the Medicis Family, in

favour of the Great Duke, and that the latter is to yield to his Catholick Majesty the Territories of Lunigiana and Pongemoll, which depend both upon Tuscany, and that they are afterwards to be given to the Republick of Genoa, in Exchange for the Island of Corsica.

Turin, Nov. 13. 'Tho' the Ambassadors of France and Spain have as yet made no Declaration how Corsica is to be disposed of, nevertheless there have been several Councils held at Court, on the present State of Affairs in Italy, with regard to the expected Nomination of the Infante Don Philip to be King of Corsica; which is an Island so near to Sardinia, that the Ministry is considering the Regulations necessary to be taken for preserving a Friendship and Correspondence between the Two Kingdoms; and they have at the same Time under Consultation, how to bring the Dispute betwixt this Court and the Republick of Genoa to a final Issue.

Madrid, Nov. 10. N. S. Several Regiments that were quarter'd in Catalonia, &c. are marching towards Andalusia, where the Court intends to assemble an Army of 30 or 35,000 Men. 'Tis a great Pleasure to us to hear of the particular Service which a Portuguese Garde de Cosse did lately to a Spanish Merchant Ship that was pursued by an English Man of War of 50 Guns. The Merchant Ship having been chased for two Days by the Man of War till she came on the Coast of Portugal, spy'd the Garde de Cosse, which, upon her calling for Assistance interposed betwixt the Spanish Ship and the English Man of War; whereupon the Captain of the latter fir'd a Shot at the Portuguese ship to oblige him to abandon the Spaniard; but the Portuguese fir'd a Broadside, which took off the Englishman's Mast by the Board, and forc'd him to strike; after which he carry'd him into the Port of Lisboa, still keeping Company with the Spaniard till he was safe. The Ministers of the Finances are studying Ways and Means to take Money without farther oppressing the Publick. Among other Expedients thought of 'tis remark'd, that as a great many wealthy People are w'd to deposit their Stocks in Churches or Convents from whence they are seldom recall'd, but on the contrary are there accumulated; and as the Principal thereby becomes of course so much dead Stock which never circulates abroad; 'tis thought proper that the King should borrow that Money on paying good Interest for it to the Proprietors; and as for this end 'tis necessary to have a Licence from the Pope, 'tis said the King has actually sent Orders to Cardinal Acquaviva at Rome, to demand such Licence, and at the same time to make Instances with that Court that the Infante Cardinal may be vested with the Dignity of Patriarch of Spain and the Indies.

Dublin, Nov. 13. We hear the Parliament has been pleas'd to grant 4000l. to the Governor and Company of the Cambrick Manufacture, for building Houses, Vaults, and other Conveniences for the Reception of French Protestant Families skill'd in the said Manufacture; so that 'tis to be hop'd that since the Legislature have been pleas'd to take that Undertaking into their Protection, we shall soon have that Manufacture flourish among us.

William Richardson, Esq; is chosen Knight of the Shire for Armagh, in the Room of William Brownlow, Esq; deceased.

A few Days ago the Rev. Archdeacon Curtis receiv'd a Letter from the Gang of Robbers in the County of Wexford, wherin, after paying him several Compliments for his Humanity and Charity, they desir'd him to send them 30l. to a certain Place where they directed, otherwise they would call on him for a larger Sum; but he did not think proper to comply with their Request, for he left his House and hath taken Lodgings at Ross.

Last Week dy'd at his Seat at Malahide John Talbot, Esq;

Last Week died Capt. Paul Espinasse, an eminent and wealthy Brewer at St. James's Gate.

Tuesday the Dutch Vessel seized by Capt. Weller last Sunday was discharg'd, Mr. Lynch the Merchant having given Bond that her Cargo shall not be landed in any Part of Spain.

The St. Coleman, with her Cargo, (which we formerly mention'd to have been friz'd) we hear is de-

liv'r'd up to the Merchant, on his giving a Bond to pay the Value if she shall be deem'd a lawful Prize upon Trial.

Our House of Commons have under Consideration the Three following Petitions; viz. One from Lieutenant Samuel Chaplin, setting forth, That his Application last Session for Encouragement to carry on a Whale-Fishery on the West Coast of the Kingdom, tho' he had a Report from the Committee in his Favour, was too late for him to receive any Benefit.

Another from Hugh Boyd, Esq; setting forth, That upon the Grant of 3000l. last Session towards making an Harbour at Ballycastle, a considerable Progress had been made in that Work; and praying for the Grant of the other 3000l. then intended to be given.

And another from Gilbert Austin of Drogheda, Linnen Damask-Weaver, setting forth, That he has at a great Expence of Time and Money invented a new Method of Weaving Linnen Damask, preferable to any other, which having occasioned Commissions for buying vast Quantities of the Petitioner, he is not able to supply all the Demands without Relief from the House.

The Committees to whom those Petitions were refer'd have voted, That 300l. be granted to Lieutenant Chaplin, and the further Sum of 3000l. to Mr. Boyd.

The following is his Majesty's Most Gracious Answer to the Address of the House of Commons, at the Opening of this Session, and the Commons' Address of Thanks for the same.
